GERMANY TAKES
STEPS TO CLOSE
ITS FRONTIER

(By Associated Press)
PARIS, May 24.—Germany replied today to the French communication of yesterday on the Silesian situation, the reply declaring in effect that Germany has taken the most rigorous methods toward closing its frontier with Upper Silesia.

Dr. Mayer informed Premier Briand that the German government had decided to close the Silesian frontier and oblige the volunteer corps to disband. After his call French official circles were optimistic regarding the situation.

PAPER TRIES TO
STIR UP GERMANS
TO REVOLUTION

(By Associated Press)
BERLIN, May 24.—Repeated efforts of the Rote Fahne, Berlin organ of the soviet, to incite German workmen to another revolt against the government have caused conservative newspapers to protest to the administration against the continued publication of the paper as inimical to law and order.

The Rote Fahne has been suppressed a number of times, some of its issues confiscated, part of its presses taken away by the authorities, but it has always been able to issue succeeding editions, in a manner which its opponents assert is confusing and mysterious.

Since the March uprising in middle Germany, the Rote Fahne has conducted a campaign against the government and the special courts which President Ebert appointed to try the workmen who raised the red flag in Saxony and the Ruhr. It has urged the workmen to prepare for another uprising, which it has recently said should now be launched.

MARTIAL LAW IN
DUBLIN RESULTS
IN FINDING ARMS

(By Associated Press)
DUBLIN, May 24.—A new feature of military administration in Dublin is the success of the authorities in discovering concealed arms and ammunition. Most active in this work has been the F company of the auxiliaries to the constabulary, which, as communications regarding it are always issued by general headquarters and not by the castle, must be supposed to be operating by military orders.

After months of almost fruitless searches important finds are being made. Search is not confined to the poorer districts and the most fashionable houses are exhaustively examined. Suspicion is not directed so much against the owners of such houses as against their servants, while in some cases it is probable that neither masters nor servants were cognizant of all that the premises contained.

Dublin has numerous streets of houses, each with a stable at the back, relics of the time when the occupants kept carriages. In many cases these stables are let to car drivers, or to anybody willing to rent them, and several of these stables have been found to contain supplies of revolvers, rifles and bombs. Some houses in the suburbs have long gardens to the end of which the owners do not often penetrate, and in some of these bombs have been discovered.

Despite all this activity the official summary of outrage records each week shows no diminution in the number or character of the attacks made in the city, which have grown in excess of all anticipations.

Apart from the bomb attacks on the military barracks which have wounded more bystanders than members of the crown forces, the audacity of the republican army is manifested every day in exploits, each of them perhaps trifling but in combination showing reckless boldness and careful organization.

MANILA, P. I., May 24.—The balance of trade during the calendar year of 1920 was in favor of the Philippine islands, the exports exceeding the imports by approximately \$1,534,000, according to the report of the customs bureau just made public.

PREMIER BRIAND
SEES NO REASON
FOR OCCUPATION

(By Associated Press)
PARIS, May 24.—Premier Briand, when questioned today by a group of deputies before the meeting of the chamber, said there was no reason for occupation of the Ruhr region because the aspect of the Silesian question had been changed, and that if the Ruhr were occupied without support of the allies it would be equivalent to abandonment of the treaty of Versailles.

RATE CHANGE
ANNOUNCEMENT
IS IMPRESSIVE

(By Associated Press)
LONDON, May 24.—Announcement of a change in the rate of discount of the Bank of England, such as the recent reduction from 7 to 6 1/2 per cent, is an impressive affair. Not one of the many hundreds of the staff of the Bank of England itself knows of the change until the actual announcement is posted, except those with the governor inside "the palace" where the directors of the bank and leading men of other banks and institutions are gathered to deliberate on the momentous decision which affects all parts of the world.

When these deliberations are concluded a gorgeously attired messenger stalks out of the parlor with deliberate slowness in accordance with ancient custom, carrying a big sheet of paper in a glass frame on which are the magic words, "6 1/2 per cent."

Hundreds of bankers' clerks, messengers and newspaper men who have been thronging the passages push forward to read the notice, which the messenger deliberately keeps far away from the crowd until he has affixed it to the wall.

Then there is a scramble for offices, telegraph, telephone booths and press offices, while press agency representatives wigwag the new rate, which is immediately flashed throughout the world.

FOR "DRY" STAND

(By Associated Press)

He declared the "average newspaper is concerned in making money and that to make a profit will keep still on every great question and fill all its columns with slush."

He contended that the prohibition law has failed to prohibit and is producing the "finest crop of youthful brewers and distillers the world has ever known."

He advocated that the United States government should manufacture its own liquor and dispense it to people desirous of obtaining it.

Upon arrival he requested a conference with the mine workers' committee, which was granted, and the conference lasted about an hour.

WILL HAND DOWN
DECISION SOON

(By Associated Press)
CHICAGO, May 24.—Rates of pay and classifications established by the railroad labor board's wage award of July 1920, will be used as the basis for reductions when the board hands down its new wage scale decision on June 1, it was learned today.

PEOPLE PAY TO
COST OF WASTE
IN INDUSTRIES

(By Associated Press)
CHICAGO, May 24.—Much losses through industrial waste are being added upon the nation, it was declared at the national forum held in connection with the meeting of the American Society of Mechanical Engineers here today.

Leading engineers, manufacturers, technologists and educators heard the latest methods of waste reduction in American industry by L. W. Walcott, executive secretary of the American Engineering Council of the Federal American Engineering Society.

"The American people," he said, "were paying a stupendous subsidy through the changing styles in women's hats, shoes and dresses. Every time fashion decreed a slight change in the cut of the lapel on men's coats, more great waste occurred, he said."

SAYS INJUSTICE
DONE MOONEY
BY CONVICTION

(By Associated Press)
SAN FRANCISCO, Cal., May 24.—The district attorney believes that an injustice was done in the conviction of Thomas J. Mooney for the 1916 Preparedness day bomb murder, and will petition the governor to pardon him. The district attorney completely opposed the recent action in behalf of Mooney by the board of prison trustees.

When Governor Stephens resumed his duties, the attorney believes that there was a mistake in his mind as to the defendant's guilt. He then said: "The district attorney completely opposed the recent action in behalf of Mooney by the board of prison trustees. If a common law writ were granted, it could be issued successfully by any criminal, thereby said."

SAYS HARDING
WILL SOLVE THE
JAP QUESTION

(By Associated Press)
TOKIO, Japan, April 1 (Delayed).—Referring to the advent of the Republican administration, into power and to the memorial address of President Harding, the Chuo, a leading daily newspaper, wrote: "Japan has been extremely polite with the United States since the opening of the country. It is true that several questions are pending between Japan and the United States at present, but none of them is of such a nature as to offer great difficulty in its solution. Although many demands for reforms are circulated regarding the relationship between the two countries, they are merely due to lack of real knowledge of the problems. There can be little doubt that the Harding administration will use its best efforts to solve such questions with as much expediency as possible."

POLAND WILL GET
BACK KEEPSAKES

(By Associated Press)
WARSAW, May 24.—The Polish government is working to return to Warsaw what the national keepsakes removed to Stockholm in 1912 to prevent their falling into enemy hands.

When the question of Poland between Prussia, Russia and Austria became imminent, patriotic Poles began to transfer collections of national relics to Rapperswil, Switzerland, where they have been preserved for nearly 100 years.

Individuals who managed to get articles of particular historical interest out of the country made valuable additions to the collection. From time to time were found after the Russian note in control of what is known as Prussian Poland.

Among the relics of olden times is a sword of one of the Polish kings. The king's sword is to be added to the national museum in Warsaw, which has been established now that Poland regained her freedom.
